A Level 4 or 5 Certificate or Diploma in ECD may also be presented for admission and assessment pertaining to advanced credit standing (MRTEQ, 2011).

ARTICULATION

Recognition of Prior Learning (RPL) processes and Credit Accumulation and Transfer (CAT) are articulation mechanisms. The institution reserves the right to conduct a formal assessment for purposes of CAT. An evaluation will be conducted to recognise prior learning. This evaluation may or may not be based on a form of formal assessment and can include a portfolio of evidence submission. These mechanisms are in line with the HEQSF as envisaged in the NQF Act 67 of 2008 and the CHE "Policies on the Recognition of Prior Learning, Credit Accumulation and Transfer, and Assessment in Higher Education" published by the CHE in August 2016.

The final approval for applications in respects of CAT and RPL, is subject to academic vetting in terms of applicable legislation and institutional policies.

ASSESSMENT

Assessments consist of **one assignment (formative assessment) and a final examination (summative assessment) for each subject**. If you did not submit an assignment you cannot register for examinations. Make sure you submit the compulsory assignment within the prescribed time because it does not cost you anything.

Your final mark for each subject will be calculated as follows: -

- Assignment contributes 20% towards the final mark
- Examination contributes 80% towards the final mark

A student who submitted an assignment for a specific subject, and fails that subject, does not have to re-submit a further assignment prior to writing the "supplementary" examination. The assignment mark is automatically carried over. However, if the assignment mark is low, and the student wishes to re-do the assignment, he/ she may apply to the examinations section for a copy of the new assignment (at the prescribed fee) and may then re-submit the assignment on or before the new due date.
